Zugolles, north of the Adamello region,
according to an official statement issued
by the war office. They have taken 100
prisoners.

WILLIS VS. COX.

Republican and Democratic Candidates
for Governor in Ohio.

Columbus, O., Aug. 14.—For the third
time in six years, Frank B. Willis, Re-
publican, of Delaware, and James M.
Cox, Democrat, of Dayton, will oppose
each other for the governorship at the
November election in Ohio this year.

This was decided at the state-wide pri-
mary election held yesterday. Willis, an
avowed dry, defeated Edwin Jones of
Jackson, and John H. Arnold of Colum-
bus, by 25,000 to 50,000 votes, according
to estimates based on complete but un-
official returns from approximately half
the precincts of the state. Cox and all
Democratic state officers were renomi-
nated without opposition. Cox and Willis
will meet again this fall, each with a
victory to his credit. In 1914 Willis de-
feated Cox, then governor. In 1916 Cox
defeated Willis, then governor.

LORD READING IN LONDON.

To Discuss with Government Closer An-
glo-American Co-operation.

London, Aug. 15.—Lord Reading, the
British ambassador to the United States,
is here to discuss with the government
proposals for closer Anglo-American co-
operation, involving defensive and off-
ensive alliances, according to the Evening
News.

They're All Over the World.

Once it was stated that the sun never
set on the British flag.

One year after America is in the war
the sun cannot set upon the American
soldiers. They are in France and they
are in Germany, across the border in
Alsace. They are in Italy. American
soldiers are in Archangel, Russia, up
under the Arctic Circle. They are also in
Vladivostok.

American soldiers are in the Philip-
pines. Hawaii and Samoa. American
soldiers are in Panama and one of the
central American republics. They are in
Hayti and San Domingo.

When the American soldiers landed in
Vladivostok and Archangel they were in
the same empire, but they were 8,000
miles apart.

This gives you some idea of the colos-
sal size of Russia.

The Arctic Circle runs a little north
of Archangel.

Archangel is on an arm of the White
sea, which before the outbreak of the
present war, was thought to be frozen
over almost the entire year. There is a
railroad running direct down through
Russia to Moscow.

After the outbreak of the war the Rus-
sians attempted to build another rail-
road to an open port on the Arctic ocean.
This port is called Kola and is open the
year round.

Great things may come of the estab-
lishment of the American army at Arch-
angel. The people of North Russia are
not tainted with bolshevism. They
are loyal Russians and, if properly sup-
ported, they will rally to the allies.—
Memphis Commercial Appeal.

A Mean Man.

"Then our engagement is broken?"
"It is. Shall I send back your let-
ters?"
"No, I've improved a lot. I can do
much better in writing to the next girl I
meet."—Ex.

GERMAN PEOPLE PROTEST.

British Bombing Offensive Causes Peo-
ple to Cry Out Against It.

London, Aug. 15.—One of the most
significant features of the aerial bomb-
ing offensive of the British is the loud
response it has elicited from the German
people, say British newspapers.

The bombing of England brought no
complaint, but only renewed resolution
from the British people; yet Germany,
suffering from the first preliminary
pangs of the British attacks, at once be-
gan to cry out against it, and protest
upon protest is pouring into the German
authorities from the populace of the dif-
ferent areas attacked.

This means that the British bombing
offensive is effective, that far-reaching
destruction has been caused to railway
junctions and factories, and that the Ger-
man claim that British raids have ac-
complished nothing serious have been
untrue.

Details of the damage caused by the
British raids can easily be suppressed
by the German censorship, but the voice
of the German people cannot permanently
be stifled, and it is asserted there is
abundant photographic and captured
documentary evidence that their fears
are based upon real execution done.

Scoffers and Doubters

Why Let Prejudice Bind You to a Life
of Rheumatic Torture?

Be fair to yourself, you suffer from
rheumatism, no matter what form. Go to
E. A. Drown & Co. or any good druggist
any get a package of Rheuma, the guar-
anteed prescription. Use the entire bot-
tle, and if you don't think it has given
you quick and sure relief, say so, and
you can have your money back.

Isn't that a fair offer? Can you see
any doubt or red tape about it? What
chance do you take? Absolutely none.

Then get a bottle of Rheuma to-day.
It's a reputable physician's prescription,
altogether different from remedies usual-
ly prescribed, free from narcotics, and
perfectly harmless. Rheuma acts on the
kidneys and helps to force the uric acid
from the swollen joints and other lodg-
ing places. It pleases you in a day; it
makes you hopeful and happy in a week.
It has released from bondage rheumatic
sufferers who thought nothing would
give relief. It should do as much for
you—it seldom fails.

Don't miss this money-back offer. A
large bottle, sufficient for two weeks'
treatment, is inexpensive.—Adv.

The Evidence Is Convincing—The Testi-
mony Open to Investigation.

Before a statement can be ac-
cepted here, it must be supported
by local testimony—by the
evidence of someone residing in
Barre. Statements from un-
known people in remote places
may be true, but we cannot
prove them. Here is a statement
by a Barre resident:

A. J. Stewart, carriage maker, 24-26
Prospect street, says: "Some years ago,
I suffered an accident to my back, which
left my kidneys weak. I was troubled
more or less after that with the secre-
tions; they were off color and generally
contained sediment. My back was quite
painful at times. I have always used
Doan's Kidney Pills at such times, and
they have always given satisfactory re-
lief."

CALL 'EM YANKS, SAYS GENERAL MARCH

Chief of Staff Frowns on "Sammie" and
Says the Doughboys Don't
Like It.

Washington, Aug. 15.—General March,
chief of staff, took occasion yesterday
to frown upon the name "Sammie" for
American troops. No American soldier
in France approved the use of that name,
he said, nor did either the French or
British understand why big, strong men,
like the Americans, should be tagged
with such a nickname. The British sol-
diers call their American comrades
"Yanks."

COLONEL REEVES RESIGNS.

His Resignation as President of Norwich,
Tendered Last Fall, Accepted.

Northfield, Aug. 15.—The adjourned
annual meeting of the board of trustees
of Norwich university convened at Dewey
hall Saturday, Aug. 10, at 9:45 a. m.,
with the following members present:
Hon. W. B. Mayo, Hon. F. E. Steele,
Hon. C. A. Plumley, Prof. M. A. Howe,
Hon. Alexander Dymally, Hon. H. C.
Cady, James M. Holland, Esq., and Prof.
W. A. Shaw. Hon. W. B. Mayo was
elected temporary chairman.

The ordinary routine business was per-
formed and the resignations of Prof. J.
H. Sasserano as professor of modern lan-
guages and Prof. Robin Beach as pro-
fessor of electrical engineering were ac-
cepted. A. A. Shapiro was elected to fill
the place of Professor Sasserano. The cen-
sorial committee was given an extension
of time for their report. A recess was
taken until 1:45 p. m., at which time
the special called meeting was held.

In the afternoon the Hon. Frank Plum-
ley, vice-president of the board, and
H. G. Woodruff of Montpelier were pre-
sent in addition to those mentioned as
being present at the morning session.

The special question for consideration at
this meeting was the election of a presi-
dent of the university, the resignation of
Col. Ira L. Reeves, which was tendered
in the fall of 1917, having been very re-
luctantly and regretfully accepted by
the board of trustees. Vice-President Plum-
ley, Dr. Mayo and Professor Howe were
constituted a committee to select a presi-
dent and to report to a future meeting
of the trustees. The consensus of opinion
was that as early a selection be made
as possible, keeping in mind always that
a high order of excellence in the one se-
lected was of prime importance.

After the special meeting the business
of the adjourned annual meeting was
again taken up. C. C. Barnes, secretary
to the president, was made an instructor
in mathematics. It being announced by
the Hon. F. E. Steele, executor of the
last will and testament of the late Mrs.
Cora R. Brown of Montpelier, that she
had made a bequest for the permanent
upkeep of the room in the Ainsworth in-
firmity called by her name, the following
resolutions were presented and unani-
mously adopted by the board:

Resolved, That the trustees of Norwich
university in behalf of that institution
accept with thanks the gift of money
and the specific bequest of an oil paint-
ing under terms of the will and from
the hands of the late Mrs. Wilbur R.
Brown of Montpelier. Further resolved,
That the dean and committee interested
of the donor in the prosperity and welfare
of Norwich university and especially in
that of the Ainsworth infirmary, so
many times manifested in tangible form
during her lifetime and last evidences,
are generously appreciated. Further re-
solved, That a copy of these resolutions
be forwarded to the executor of her
estate and that they be spread upon the
records.

DEVELOP NEW ENGLAND.

A New England Campaign for New Eng-
land Manufacturers.

One of the old established, up-to-date
and enterprising advertising agencies,
Wood, Putnam & Wood of Boston, have
just issued an appeal to New England
manufacturers to develop the New Eng-
land market more intensively through
newspaper advertising, and have given
in convenient form a chart of adver-
tising costs in newspapers of New Eng-
land on spaces ranging from three inches
double column to ten inches, four col-
umns for periods of one month to six
months. Seventy-nine cities are shown,
their newspapers listed, and rates fig-
ured out in detail. The ideas advanced
and the information given in this table
of rates ought to be of interest to any
enterprising New England manufactur-
er who is manufacturing merchandise
under his own trade mark and is en-
terprising enough to want to do some-
thing now to insure his after-the-war
market. Any manufacturer who has not
received this chart should send for it,
addressing Wood, Putnam & Wood com-
pany, 111 Devonshire street, Boston,
Mass.

GEN. VON BOEHN IN COMMAND

German Retreat Specialist
in Supreme Charge on
Somme Front

THIS MOVE HIGHLY SIGNIFICANT

German Withdrawal North
of Albert First Appli-
cation of Tactics

Paris, Aug. 15 (Havas).—General Hans
Von Boehn, the German "retreat special-
ist," has been appointed to the supreme
command on the Somme front. The
newspapers believe this change in the
German command is highly significant.
The German withdrawal north of Albert
is looked upon as the first application of
his tactics.

Amsterdam, Aug. 15.—Vice Admiral
Blencoe has been appointed state secre-
tary to the German admiralty, says the
Weber Zeitung of Bremen. He formerly
was vice chancellor of the naval general
staff.

COLLEGE TRAINING PLAN IN FULL SWING

Plan to Have Every Important College
in the Country a Military
Post.

With President R. C. McLaughlin of
the Massachusetts Institute of Technol-
ogy serving as educational head of the
students' army training corps, and a
staff of well-known civilians to help in
the task, the war department's plan to
have every important college in the
country a military post for the train-
ing of men for the army and navy is
making rapid headway. On July 18,
three large training camps at Platts-
burgh, N. Y., San Francisco, Cal., Fort
Sheridan, Ill., with attendance of 7-
800 members of college faculties and se-
lected students began a sixty-day course
designed to prepare men to assist in the
work of military instruction in the col-
leges this year.

Details of the plan have just been an-
nounced by the war department. "The
plan is an attempt to mobilize and de-
velop the brain power of the young
men of the country for these services
which demand special training," says
the war department. "It's object is to
prevent the premature enlistment for
active service of these men who could
be extended the period of their college
training, multiply manifold their value
to the country."

In its announcement the department

points out the needs for highly trained
civilian leaders of every kind.

"The importance of this need cannot
be too strongly emphasized," says the
war department's circular. "This is a
war in which soldiers are not only
marksmen, but also engineers, chem-
ists, physicists, geologists, doctors, and
specialists in many other lines. Scien-
tific training is indispensable. Engineer-
ing skill is needed by the officers, who
direct every important military opera-
tion and who control our lines of trans-
port and communication. In the same
way chemical and physical knowledge
are in constant demand at the front as
well as behind the lines, while the task
of saving the lives and restoring the
health of hundreds of thousands of
wounded calls for the services of regu-
lars of military physicians. The sci-
entific training which prepares a man to
fulfill one of these highly specialized
duties and the more liberal training
which helps to develop the qualities of
leadership needed by the officers or ad-
ministrator are essential elements of
military efficiency.

The boy who enlists in the students'
army training corps will be a member
of the army of the United States. He
will be provided by the war department
with uniforms and equipment, but will
be on furlough status and will not re-
